Enrollment

You and your patient work together to complete the enrollment form and send to TARPEYO Touchpoints via fax. A TARPEYO Touchpoints Care Navigator will follow up on any missing information, if needed, and call to welcome the patient to TARPEYO Touchpoints.

Access support

When you enroll in TARPEYO Touchpoints, our support team helps your patients get started on therapy. TARPEYO Touchpoints handles the necessary paperwork that comes with access, including:

- **Benefits investigations:** Services and information to confirm coverage
- **Prior authorizations (PA):** Guidelines for establishing medical necessity criteria
- **Appeals assistance:** Prefilled templates and other resources to appeal PA denials

Financial assistance programs

Financial support programs are available to reduce or eliminate out-of-pocket costs for your eligible patients, including the:

- **TARPEYO Touchpoints™ Copay Assistance Program**
- **TARPEYO Touchpoints Patient Assistance Program (PAP)**

Ordering and delivery

TARPEYO™ (budesonide) delayed release capsules are ready to be shipped for delivery by our exclusive specialty pharmacy, Biologics. We can walk you through the delivery process to help ensure TARPEYO is delivered to your patients' doorsteps without a hitch.

Patient support services

You and your patients deserve a team that goes the extra mile.

Once your patient has received their TARPEYO delivery, a TARPEYO Touchpoints Care Navigator will regularly follow up with them to discuss:

- Medication routines
- Side effects
- Lifestyle and dietary considerations
- On-time medication refills
